Crewsaver Slatted Floor Range

The Crewsaver range of slatted floor inflatable boats offers a range of affordable, high quality tenders. Ideal for all-round use, whether you require a means of transport to your yacht or looking for a small boat option to get out on the water. Both set up and launching of these boats is made simple thanks to the one-touch quick inflation valves and included high-volume pump. Thanks to the slatted floor you can easily roll up your boat when you need to transport or stow it.

FEATURES

- * Quick and Easy to inflate and stow
- * Quick pressure relief valve
- * Thick rubbing strake around the boat
- * Solid transom accomodates a wide range of traditional or electric motors
- * 2 stainless steel tow rings fitted around the bow
- * 2 stainless steel eye bolts fitted to transom for davit attachments
- * Solid end cones for protection

Included with each boat

Collapsible Oars, Foot Pump, Cary Bag and Repair Kit

Crewsaver Air Deck Range

The Crewsaver range of air floor inflatable boats offers a range of affordable, high quality tenders. Ideal for all-round use, whether you require a means of transport to your yacht or looking for a small boat option to get out on the water. The integral drop-stitched air deck offers rigidity for increased boat performance, with the added benefit of keeping boat weight to a minimum. It additionally provides added impact absorption properties.
